### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with David Kogan on Oct. 17, 2005.

The application has been amended as follows:

25. (currently amended) Apparatus for attaching auxiliary eyeglasses to conventional eyeglasses comprising: temple extensions on said conventional eyeglasses having first mating surfaces; appendages on said auxiliary eyeglasses, all said appendages having second mating surfaces; said second mating surfaces capable of being mounted solely below said first mating surfaces by magnetic attraction whereby said auxiliary eyeglasses are capable of being removably secured to said conventional eyeglasses such that said auxiliary eyeglasses are aligned with said conventional eyeglasses.

26. (currently amended) A method of attaching auxiliary eyeglasses to conventional eyeglasses comprising: providing a single appendage on each of two sides of said auxiliary eyeglasses, each appendage having magnetic material that is capable of fitting solely below and mating with magnetic material on said conventional eyeglasses; whereby said auxiliary eyeglasses are capable of being removably secured to said conventional eyeglasses such that said auxiliary eyeglasses are aligned with said conventional eyeglasses.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: An appeal conference held on Sept 30, 2005 agrees that the limitations "each appendage having magnetic material that is capable of fitting solely below and mating with magnetic material on said conventional eyeglasses" combination with "such that said auxiliary eyeglasses are aligned with said conventional eyeglasses" would overcome the 112 problems and overcome the 103 rejection over the Chao reference. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claims 15,24-28. Therefore claims 15-28 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
